

6.9%. Mr Macleod said there had been issues with pupils turning up late for school and this is being addressed.

He said disruption to buses during the winter weather last year may also have had

higher and further education show big variations across the region.

Some 70% of those leaving Mallaig High went into full-time education, compared with just 33% of school leavers at Kilchuimen

Academy at Fort Augustus. Instead, the new figures show half of pupils at the school went directly into employment.

There was a similar situation at Kingussie High. In

Argyll, pupils also achieved results which were close to the Scottish average.

In particular, Treen High saw improvements in results in S4 and S6.

Dashes (-) have been inserted instead of figures for some schools and categories. Percentages based on the results of more than 0 but fewer than 5 candidates are not printed because they could be misleading or lead to the identification of individuals. In other cases, it is not possible for the school to have any data for the category, for example S5 and S6 results for S1-S4 schools; S4, S5 and S6 results for S1-S2 schools; Cases where the relevant year group roll figure is zero. Last year's exam figures have been revised to include appeals. Amounts more than 100% are due to pupils joining the school from a junior secondary.

Dots above the line means the pupils have done better here than in the other exams they sat.

Progression values
 Pupils who have progressed well from Standard Grade to Higher (and done better than pupils sitting this exam in other parts of the country) appear as dots above the line.
